

OUR CAPABILITIES

WIRE PROCESSING

THERMOPLASTIC COATING

FIELD OF APPLICATION OF THERMOPLASTIC COATING

**EQUIPMENT FOR
SUPERMARKETS**

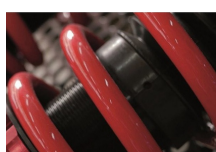

shelves for refrigerated display cases
baskets for freezers
production limiters

**HOUSEHOLD
APPLIANCES**

dishwasher baskets
refrigerator shelves
defrosting trays

**AUTOMOTIVE
INDUSTRY**

bike racks
battery housings
door hinges
chassis parts
springs, air intake grilles

**THE
MEDICINE**

wheelchair parts
parts of mobile carts
bed frames

PUBLIC PLACES

handrails
outdoor furniture
elements of the fence

COMPARISON OF POLYMER AND THERMOPLASTIC COATINGS

FEATURE	POLYMER COATING	THERMOPLASTIC COATING
coating thickness, μm	60-80	500-1000
elasticity	good	excellent
resistance to ultraviolet radiation	satisfactory	good
corrosion resistance	good	excellent
scratch resistance	satisfactory	excellent
pollution resistance	satisfactory	good
salt bath test result
