

MORE POSSIBILITIES WITH OUR OPTIONS

CLIMATE AND ENERGY SAVING

SOLAR PANELS WITH ENERGY STORAGE SYSTEM

Our experts will design your system based on your requirements so that you can enjoy off grid electricity all year round

LUNA2000 - battery pack Lithium-iron technology energy storage system

SUN2000 - Smart PV String Inverters

AIR CONDITING WITH OR WITHOUT HEATING

Our experts will design air-condition system or heating system. Highly efficient inverter air conditioners can be used for additional heating during the winter, depending on outside conditions (temperature, humidity, wind etc.).

AIR VENTILATION SYSTEM

The LUNOS Silvento bathroom fan is one of the quietest exhaust fans on the market. The fan is almost inaudible in the room.

The Silvento bathroom fan consumes just 1.8 to 6.2 W per hour.

CHOOSE OUR STYLISH ALUMINIUM FRAMED GLASS PANELS TO INCREASE NATURAL LIGHT, ATTRACT CUSTOMERS AND TO SHOWCASE YOUR PRODUCTS

The showcase can be closed, with a window or a door

At your request, any of the walls of the modul can be replaced with a aluminium framed glass panels

PREMIUM FAÇADE THAT COMPLETELY COVERS THE YOUR MODUL STRUCTURE

Our additional curtain wall system can dramatically change the outer design of a modul. The panels are made of 1mm thick metal.

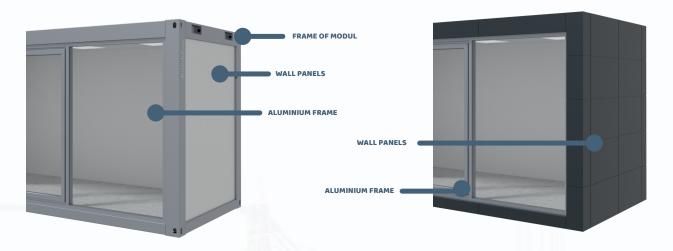

Painting of panels in any colour according to the RAL catalog. The panels are hung when the container is installed in place. Additional panels will increase the outer dimensions of the container by 40 mm on each side.

CHOOSE YOUR FAVORITE COLOUR FOR YOUR MODUL

STANDARD OR URBAN FACADE

PREMIUM FACADE

STANDARD

NECESSARY ELEMENTS FOR MULTI-STOREY CONSTRUCTION (STAIRS, TERRACES)

You can build more complex buildings from standard containers. It can be

- several floors
- a treated timber terrace
- a structure to install a green roof

Build it. Plug it. Use it.

Because of our modular design, assembly of multi-storey solutions is quick and ready for utility connection. No wiring required.
